February 8th

In the aftermath of Sept. 11, 2001, a college student traveled across America and discovered stories of racism, violence, and the power of forgiveness. Her journey became *Divided We Fall*.

On a two-year international tour, the film inspired deep, courageous dialogue about who we are and who we want to be.

It captures the imagination of a people hungry for renewal and healing - now more than ever.

DIVIDED WE FALL

AMERICANS IN THE AFTERMATH
